

**More than an expert
in gas chromatography.**

Capable of measuring confidence in its gas analyzers.

MultiDetek2 gas chromatograph

DESIGNED BY EXPERTS, FOR LEADERS

Well recognized as a world leader in robust industrial gas chromatographs manufacturing, LDetek knows how to work with its large network of clients in order to make their experience the best possible.

Our commitment starts from supporting your ideas from the drawing board. Our experts are at your disposal to discuss your project and its feasibility. Our mission consists of respecting your budget and offering the best instrument available to make your life easy.

A turnkey system including commissioning & training program is proposed with every of our analytical instrument. Satisfaction of the on-site operators is our priority.

Our engagement just gets reinforced even stronger after installing a system to be sure the users in place are comfortable with their new analytical instrument. Periodic analyzer calibrations/checkups/updates are proposed to ensure the instrument works perfectly and offers the latest technology available for it. On top of that, extended warranty/maintenance programs are planned to be sure minimizing the failure risk on long term period.

HOW OUR SOLUTION MAKES **YOUR LIFE EASIER**

ROBUSTNESS & MODULARITY

Nothing better than showing our own gas chromatograph to demonstrate a symbol of robust and modular design offering all the gas analysis possibilities inside one compact instrument. Your application has changed, and your instrument must be re-configured? No problem! Our modularity design makes it easy to readapt the instrument to your actual need. Design by experts, for leaders.

REMOTE ACCESS

Remote connection through network allows our experts to access your instruments for quick support. Our platform infrastructure allows to access the internal database of the instrument to know all the historic events. Years of information, access in a second.

WORLDWIDE HIGH SKILL TECHNICAL RESSOURCES

Wherever you are located, we have high skill experts ready to help you. Our training program within our organization makes our technical resources always up to date and ready.

WARRANTY & TRADE IN PROGRAMS

Extended warranty programs are there to make your life easier. Our high value design product gives you a residual value at its end of life to trade with our latest technology available. Let us work for you!

HOW WE MEASURE **CONFIDENCE**

By having the demonstration of our ability to build robust solutions based on highly skilled involved employees and high quality criteria company philosophy. This is represented by long durability of our instruments being more than 11 years. At the end of this cycle, our company engagement is proud to open discussions to offer the residual value of your highly valuable analytical instrument in exchange for our latest technology device suitable for your application.
