

LDrack

SYSTEM INTEGRATION INTO 19" RACKMOUNT CABINETS SEMICONDUCTOR & INDUSTRIAL GASES APPLICATIONS

NEMA CABINETS

- ▶ Unique slide out design to offer easy access for maintenance without removing unit from gas sources.
- ▶ Turn key sampling system in place.

Different rackmount enclosures available for indoor or outdoor installations with different options:

- ▶ Close or open frame
- ▶ Steel cabinet
- ▶ Stainless Steel 304/316
- ▶ AC system
- ▶ Heating system with isolation
- ▶ Orbital welding
- ▶ Third party integration

LDportable

LDetek also offers a portable solution for gas analysis. Its robust transportable rackmount enclosure with carrying handles and wheels is the perfect solution when moving the analyser to different locations is required.

The system allows quick starting mode by having the LDP1000 series integrated gas purifier for carrier and reference gas integrity in place. High purity isolation valves are also mounted to isolate the system against air contamination during transportation. All gas connections are mounted on the back plate for an easy and quick access.

A stream selection system and gas regulators can be mounted on the front panel for proper sample regulation before entering into the analyser.

Gas chromatograph or online gas analyser can be integrated in our solution easily. Our analyser design with its front door gives a full access to inside the instrument easily. An integrated touchscreen interface and PC allows direct access to data. A remote access is also available in all our instruments.

Anti vibration protection system is in place in each corner to minimize the vibrations and reduce the risk to damage the system during transportation.
